Juice boxes are allowable WIC items prescribed in rare cases to meet specific participant needs. The only juice boxes that are allowable are 8 packs of 4.23 oz boxes. The allowable brands and flavors are on the New York State Approved Product List. Most WIC participants will not have juice boxes prescribed in their WIC benefits.

If a WIC participant with an eWIC card brings juice boxes to the cash register, the juice boxes should be scanned as usual. If the participant has no available benefits for juice boxes, the participant should then be given the choice to buy them with a different form of payment or remove them from the transaction.

In cases where participants are still using WIC checks, juice boxes should only be sold to participants whose checks specify juice boxes.
