

# WIC Foods Not Scanning

[www.nyswicvendors.com](http://www.nyswicvendors.com)

If an item should be approved but it is not scanning as WIC approved, the participant or store management should email the New York State (NYS) WIC Program to have the item added to the Approved Product List (APL). The email must include store information, clear pictures of the label, UPC code, nutrition facts label, and the ingredient list. If NYS WIC approves the item, a confirmation email will be sent stating that the item has been added to the APL.

Send Email to: [wicfoods@health.ny.gov](mailto:wicfoods@health.ny.gov)

## Summary:

When an item should scan as WIC approved:

1. Take pictures:
  - a. UPC Code
  - b. Labels front and back
  - c. Ingredients
2. Send Email including pictures to [wicfoods@health.ny.gov](mailto:wicfoods@health.ny.gov)
3. Item is reviewed/approved
4. Item will scan as WIC approved

Items may also be submitted at [www.nyswicvendors.com](http://www.nyswicvendors.com) by clicking on 'Approved Product List'
