זוהי הודעה חשובה. נא לתרגם אותה.

The New York State Department of Health WIC Program has two important reminders:

- 1) The WIC2Go mobile app must not be used to scan prepackaged fresh produce UPCs.
- 2) All vendors with integrated cash register systems must map prepackaged fresh produce UPCs to the closest matching PLU codes.

Two new informational handouts, not for participant distribution, titled, “Prepackaged Produce WIC2Go UPC Scanner” and “Prepackaged Produce Vendor Mapping”, are attached and posted to the “Foods and Formula” section of the WIC Vendors In New York State website at www.nyswicvendors.com.

If you have questions about this information, please contact your VMA.

Thank you,

NYS WIC Program
