זוהי הודעה חשובה. נא לתרגם אותה.

Due to recent shortages of Neocate Infant DHA/ARA and the recall of EleCare for Infants, the NYS WIC Program has **temporarily** added **Neocate Syneo Infant 14.1 oz powder** to the Formulary as an alternative product.

Neocate Syneo Infant is comparable to Neocate Infant DHA/ARA, with the addition of prebiotics and probiotics.

Participants that are issued Neocate Infant DHA/ARA may also purchase Neocate Syneo Infant depending on formula availability.

When supply chain issues resolve, NYS WIC will re-evaluate the need for Neocate Syneo Infant.

If you have any questions, please contact your Vendor Management Agency.

Thank you,

NYS WIC Program
